COMPANY BIOGRAPHY

Garry Oak Ecosystems Recovery Team Society (GOERT) is a registered charity (effective April 1, 2009) and is incorporated under the Society Act of British Columbia.

The Society's purpose is to educate the public and professionals about Garry oak ecosystems and associated species, to conduct research related to Garry oak ecosystems and to engage in environmental stewardship projects to improve and secure Garry oak and associated ecosystems so that they are no longer at risk of extinction. GOERT operates primarily on southern Vancouver Island and the southern Gulf Islands.

1. SIGNIFICANT ACCOUNTING POLICIES

Revenue recognition

The Society uses the deferral method of accounting for contributions.

Restricted contributions are recognized as revenue when the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or when receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Contributions of property are recognized only when a fair value as of the date of contribution can be reasonably estimated, the property is to be used in the normal course of operations and would otherwise have been purchased.

Property and equipment

Property and equipment purchased are recorded at cost. Contributions of property and equipment are recorded at fair value as of the date of contribution.

Volunteer services

Volunteers contribute many hours each year to assist GOERT in carrying out its mandate. Because of the difficulties of determining fair value, volunteer services are not recognized in the financial statements.
